Notice of Meeting/Workshop Hearing

OTHER AGENCIES AND ORGANIZATIONS Gulf Consortium

The Gulf Consortium announces a public meeting of its Board of Directors ("Board") to which all persons are invited to attend and participate. The meeting will be via communications media technology as further described below.

DATE AND TIME: November 29, 2022 at 4:30 pm (ET)

https://meet.goto.com/176854197 You can also dial in using your phone. United States: +1 (872) 240-3212

Access Code: 176-854-197

GENERAL SUBJECT MATTER TO BE CONSIDERED: The Board will meet to review the status of grant applications and grants, review financials, the 5th SEP amendment, and conduct other business at the discretion of the Board.

A copy of the agenda may be obtained at www.gulfconsortium.org or by contacting: General Manager at 407-629-2185 or <u>Gulf.Consortium@balmoralgroup.us</u>.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 3 days before the workshop/meeting by contacting the General Manager at 407-629-2185 or <u>Gulf.Consortium@balmoralgroup.us</u>. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1-800-955-8771 (TDD) or 1-800-955-8770 (Voice).

If any person decides to appeal any decision made by the Board with respect to any matter considered at this meeting, he/she may need to ensure that a verbatim record of the proceeding is made, which record includes the testimony and evidence from which the appeal is to be issued.

For more information, please contact the General Manager at 407-629-2185 or Gulf.Consortium@balmoralgroup.us.

Gulf Consortium Board Meeting September 15, 2022 5:00 PM Teleconference

Members in Attendance: Chairman Christopher Constance (Charlotte), Commissioner Scott Carnahan (Citrus), Robert Carol (Bay), Gary McAlpin (Collier), Commissioner Robert Bender (Escambia), Commissioner Marielle Smith (Hillsborough), Commissioner Jack Mariano (Pasco), Charlie Justice (Pinellas), Commissioner Dave Pietch (Santa Rosa), LaWanda Pemberton (Taylor), Joe Kraus (Sarasota), Melinda Gates (Walton)

Also in Attendance: Dan Dourte, Richard Bernier, Amanda Jorjorian, Valerie Seidel (all, The Balmoral Group) Lynn Hoshihara (NGN)

Agenda Item #1 - Call to Order

Chairman Christopher Constance (Charlotte) called the meeting to order at 5:00pm.

Agenda Item #2 - Roll Call

Valerie Seidel took roll call. Attendees as above.

Agenda Item #3 - Addition or Deletions

Chairman Christopher Constance asks the board if there are any additions, deletions, or changes that need to be made to the agenda. It was noted that a representative Sarasota was at the last board meeting so that is an edit to the consent agenda. Commissioner Bender makes a motion to approve as noted, Commissioner Meeks second.

ACTION: APPROVED

Agenda Item #4 – Public Comment

Chairman Christopher Constance asks if there is anybody from the public that wishes to speak to any of the items on the agenda. Hearing none, Chairman Christopher Constance proceeds to the next agenda item.

Agenda Item #5 - Consent Agenda

Chairman Christopher Constance presents the meeting minutes from June 30, 2022 meeting and report on delegated authority through August 31, 2022. Commissioner Scott Carnahan made the motion to approve the minutes as amended, second my Commissioner Marielle Smith.

ACTION: APPROVED

Agenda Item #6 - Grant Applications Status

Chairman Christopher Constance recognized Dan Dourte who provided an update on grant applications. There is one new application. The next deadline is October 21st to allow for review prior to the December board meeting. The new application is Hillsborough County 17-1 and it includes design and construction. Commissioner Smith made the motion to approve the grant application 17-1, second by Commissioner Meeks. Commissioner Smith commented that she was pleased and hopeful that the motion would be approved. All in favor. None oppose.

ACTION: APPROVED

Agenda Item #7 – Financial Report

Chairman Christopher Constance recognized Richard Bernier who provided the balance and income statement through July 31, 2022. They are well within budget for the year. There were no questions on this item. Commissioner Mariano made the motion to approve the financial report, second by Commissioner Carnahan. All in favor.

ACTION: APPROVED

Agenda Item #8 – 2023 Gulf Consortium Meeting Calendar

Commissioner Chair Constance recognizes Dan Dourte who gave an update on the 2023 Gulf Consortium Meeting Calendar. There are four meetings proposed. Option 1 is for two in person, two virtual and Option 1a is, two in person, two virtual with one of the virtual meetings be in January, the Option 2 is three virtual, one in person. The January meeting does not coincide with a FAC meeting but will need to be held for elections. Commissioner Justice commented that he is fine with three virtual one in person meeting. Commissioner Meeks asked about holding elections virtually and commented that he would be fine with Option 2 as long as online voting could be private and secure. Jack Mariano was comfortable with it was well. Charlie Justice made the motion to approve Option 2 with the in-person meeting to be in Orlando with the FAC annual meeting, seconded by Commissioner Meeks.

ACTION: APPROVED

Agenda Item #9 – Gulf Consortium 22/23 Budget

Chairman Christopher Constance recognized Valerie Seidel who provided the 22/23 budget to the board. A graph was included that showed the historical expenses to date as requested by the Executive Committee. The county dues are staying constant. Legal has requested less hours, they have been well below their budget the past few years. Commissioner Meeks made the motion to approve the budget, second by Commissioner Bender.

ACTION: APPROVED

Agenda Item #10 - SEP Amendment Request

Chairman Christopher Constance recognized Dan Dourte who provided a request to be authorized to start work on SEP amendment #5. A poll was sent out the prior month to ask who needed to make SEP changes and so far, there are 3 counties. It was encouraged for any counties that need to refine their project list due to increased costs or otherwise to come forward for the SEP Amendment. There is a document on the Consortium website that should be reviewed for completion by October 21st to bring back to the December board meeting. Commissioner Jack Mariano made the motion to approve the SEP Amendment Request, second by Chairman Christopher Constance.

ACTION: APPROVED

Agenda Item #11- General Counsel Report

There were no updates from General Counsel.

ACTION: N/A

Agenda Item #12- Manager's Report

Chairman Christopher Constance started by noting that Commissioner Griffitts, Dukes, Commissioner Carnahan, and Taylor would be leaving the Board. Staff appreciate the time they give to the Consortium. Valerie Seidel then gave an update on the manager's report. She commented that the above directors would be receiving award recognitions for their service to the Consortium. There were also more vacancies now due to the turnover so she asked those counties to ensure they had a representative on the board. Staff was currently working on assigning risk ratings to counties and working through the OSAs. Also, the Executive Committee made appointments last week based on Commissioners who came forward wiling to accommodate some of the director's vacancies. Commissioner Nancy Detert was selected to serve on the Finance Committee and Commissioner Charlie Justice was selected to serve on the Executive Committee as an At-Large Alternate. Commissioner Bender was moved to the role of Executive Committee At-Large member (previously was an alternate).

Agenda Item #13 – Public Comments

ACTION: None informational only.

Agenda Item #14 – Board Member Comments

Jack Mariano noted about attendance at Gulf State Counties. Chairman Christopher Constance asked the details to be sent to Dan or Valerie so it could be distributed to the whole board.

ACTION: None informational only.

Agenda Item #15- Upcoming Gulf Consortium Board Meeting

The next meeting is scheduled between Nov 30 and Dec 2 in conjunction with FAC conference. Commissioner Jack Mariano commented that he would be away. Commissioner Justice commented he would be at the FAC conference. Commissioner Mariano made the motion to hold the meeting virtual, second by Commissioner Meeks.

ACTION: APPROVED

Agenda Item #15- Adjourn

Chairman Christopher Constance adjourn the meeting at 5:32

AGENDA ITEM 5b

Gulf Consortium Board Meeting November 29, 2022

Consent Agenda

Item 5b

Report on Delegated Authority Actions from August 19, 2022 – November 4, 2022

Summary:

Staff report of actions carried out through delegated authority of the Board. There were 2 new applications including 1 new application and 1 new resubmittal application, and there were 10 draw requests for \$117,018.44. A detailed listing of individual transactions follows.

Submission Date	Action Taken	County	Project No.	Amount
8/19/2022	Submitted Grant Application	Hernando	14-5	2,449,510.00

11/4/2022	Submitted Financial Report	Hillsborough	17-1	

AGENDA ITEM 6

Gulf Consortium Executive Committee Meeting November 29, 2022

Agenda Item 6 Grant Applications

Statement of Issue:

Reminder of upcoming grant application deadline. No new applications for approval.

Background:

The next recommended deadline for submission of grant application materials is 12/16/2022, to allow for staff time to prepare applications for the January 2023 Consortium Board Meeting. See project data dashboard (page navigation arrows at bottom of dashboard) for project and milestones lists:

http://datavisual.balmoralgroup.us/GulfConsortiumProjects. Please let us know if you have projects planned for later that could possibly start now; these can be reviewed by the Board if they are able to start sooner than originally planned.

Please consider what work you want to start in the next year; if you want Bucket 3 funded work to start by January 2024, you should start the funding application process now. Preaward costs may be allowable but that brings some extra risk.

Reminder - all active projects can be reviewed here:

https://datavisual.balmoralgroup.us/GulfConsortiumStoryMap

That link includes access to all project deliverables (plans, permits, as-built documentation, etc.)

Most Recent Activity:

No new grant applications from Counties

AGENDA ITEM 8

Gulf Consortium Board Meeting November 29, 2022

Agenda Item 8 SEP Amendment Draft

Statement of Issue:

Request that the Draft SEP Amendment #5 be released for public comment.

Background:

An amendment to the SEP is required for new projects or changes in scope of existing projections. This is the 5th amendment to Florida's SEP. Amendments to the SEP are done as needed and not more frequently than once per year.

Analysis:

Changes were made in Okaloosa and Manatee Counties for new projects and the duration of the Gulf Consortium Adaptive Compliance Project (24-1) was extended by 5 years. Okaloosa County added an artificial reef expansion project and Manatee County added a boat ramp project to replace Kingfish Boat Ramp. If approved in draft form at the November Board meeting, this would open the required 45-day public comment starting within a few days of that Board meeting.

Options:

The following options are suggested for consideration by the Board:

- (1) Approval of Draft SEP Amendment #5 to be released for public comment
- (2) Board direction

Recommendation:

Option 1

Attachments:

Draft SEP Amendment

Prepared by:

State of Florida

STATE EXPENDITURE PLAN -

DRAFT Amendment 5: December 2022

Submitted Pursuant to the Spill Impact

Component of the RESTORE Act

33 U.S.C. § 1321(t)(3)

Executive Summary

This fifth amendment (DRAFT) to the State Expenditure Plan (SEP) for the State of Florida, prepared by the Gulf Consortium (Consortium), addresses the following:

- Adds a new project in Okaloosa County expansion of artificial reef areas
- Adds a new project in Manatee County for a public access boat ramp at a location to be identified during planning and due diligence. This project replaces project 18-10 Kingfish Boat Ramp as there were permitability challenges that prevented implementation as planned.
- Increases the duration of the Adaptive Compliance project to accommodate future SEP amendments, audits, and other Gulf Consortium grant eligible efforts in support of SEP implementation

An updated project milestone table is included with this amendment (Table 1); this replaces the sequencing summary table found on pages 483-484 in the original SEP. An updated project summary table, showing all Spill Impact Component project total costs can be found in Table 2; this replaces the project summary table found on pages 455-456 in the original SEP.

State Certification of RESTORE Act Compliance

In accordance with Section 5.2.2 of the SEP Guidelines provided by the Council, the Gulf Consortium hereby certifies the following:

- All projects, programs, and activities included in the Florida SEP amendment are eligible activities as defined by the RESTORE Act.
- All projects, programs, and activities included in the Florida SEP amendment contribute to the overall economic and/or ecological recovery of the Gulf Coast.
- The FL SEP amendment takes into consideration the Comprehensive Plan and is consistent with the goals and objectives of the Comprehensive Plan.
- Issues crossing Gulf State boundaries have been evaluated to ensure that a comprehensive, collaborative ecological and economic recovery is furthered by the Florida SEP.
- All projects, programs, and activities included in the SEP are based on and/or informed by the Best Available Science as defined in the RESTORE Act.

Public Participation Statement

The draft FL SEP Amendment 5 was delivered by email on 11/11/2022 to the Gulf Consortium Board of Directors, County personnel, industry stakeholders, Florida state agencies (including Florida Department of Environmental Protection and Florida Fish and Wildlife Conservation Commission), and conservation organizations (more than 100 people). The draft FL SEP Amendment 5 was presented in public meetings on 11/17/2022 and 11/29/2022. During these meetings the content of the amendment was described and comments were invited. The draft FL SEP Amendment 5 was posted on the Gulf Consortium website (https://www.gulfconsortium.org/) and the link to a comment portal (https://www.gulfconsortium.org/draft-sep-amendment-5) was provided in the email delivery described above. In the email message to County commissioners,

County staff working on RESTORE efforts, DEP, FWC and NWF, it was requested that the amendment be forwarded along to other interested stakeholders for comments.

Financial Integrity

The Consortium is the legal entity in Florida responsible for implementation of this Florida SEP amendment, and will be the direct recipient of grant funds disbursed by the Council to the State of Florida pursuant to the Spill Impact Component of the RESTORE Act. The full original SEP (https://www.gulfconsortium.org/state-expenditure-plan) should be referred to for additional detail on the financial integrity of the Gulf Consortium.

Projects described in the SEP will be carried out by the Consortium Counties acting as subrecipients to the Gulf Consortium. The Gulf Consortium has a formalized risk assessment process in place to assess the capabilities of subrecipients to implement activities in the Plan consistent with the requirements of 2 CFR Part 200, including the subrecipient risk evaluation in 2 CFR 200.331(b). Regarding the process for assessing subrecipient capabilities, the Gulf Consortium will document that the Consortium's counties which use their own subrecipients to implement SEP activities will assess the capabilities of those sub-subrecipients consistent with the requirements in 2 CFR Part 200, including the subrecipient risk evaluation in 2 CFR 200.331(b).

Overall Consistency with the Goals and Objectives of the Comprehensive Plan

The process for goal development and the consistency of Florida SEP activities with the Council Comprehensive Plan is described in detail in the Florida SEP. This SEP amendment is fully consistent with, and furthers, the Council's Comprehensive Plan. The projects, programs, and activities proposed in this Florida SEP amendment were nominated through a county-driven process.

Compliance with 25 Percent Infrastructure Limitation

In accordance with Section 4.2.2 of the Council's SEP Guidelines, the State of Florida hereby certifies that the proposed projects, programs, and activities described in Section V of this SEP comply with the 25 percent infrastructure limitation. For SEP purposes, the term "infrastructure" has the same meaning as provided in 31 Code of Federal Regulations (CFR) Section 34.2. The 25 percent infrastructure limitation is defined in the RESTORE Act, 33 U.S.C. Section 1321(t)(3)(B)(ii). This provision states that not more than 25 percent of the allocated Spill Impact Component funds may be used by a State for infrastructure projects for RESTORE Act Eligible Activities 6 and 7, which include:

- Eligible Activity 6: Infrastructure projects benefiting the economy or ecological resources, including port infrastructure, and
- Eligible Activity 7: Coastal flood protection and related infrastructure.

This proposed amendment does not change the infrastructure costs as the new boat ramp project is replacing an existing boat ramp project that also was counted as an infrastructure project. The total infrastructure costs are about 17% of the total Gulf Consortium planned funding.

SEP Project Cost and/or Scope Changes

The projects and/or programs in a State Expenditure Plan (SEP) may need to be modified in the future in response to a range of factors including cost, engineering and design, permitting, and other considerations. In some cases, such changes will warrant an amendment to the SEP, including public review and input. In other cases, such changes can be made at the discretion of the SEP sponsor without the need for a SEP amendment.

A SEP amendment is not required for a cost change to an approved SEP project or program if (i) the cost change does not affect the overall scope or objective of the given project or program, and (ii) funding is available within the total amount approved for the SEP (including amendments). For example, if the cost of a boat ramp increases due to increased construction costs but the scope of the project would not materially change and the total approved SEP funding would not change, then a SEP amendment would generally not be required. Similarly, if a proposed construction cost saving would not result in a material change to the overall project scope or objective, an amendment would not be required.

In some cases, however, increasing the funds for one SEP project or program may require decreasing the scope of other SEP projects or programs. If the reallocation of funds from one or more SEP projects or programs to another results in a material (more than minor) change in the overall scope or objective of the project(s) or program(s) from which funds are taken, then a SEP amendment is required.

If the proposed cost change requires additional funding above and beyond the total amount approved in the SEP and any amendments, it too requires a SEP amendment, regardless of whether there is a material change in the overall scope or objective of the given project or program.

Okaloosa County

Artificial Reef Program Expansion

PROJECT NO. 3-6

Proposed Projects, Programs, and Activities

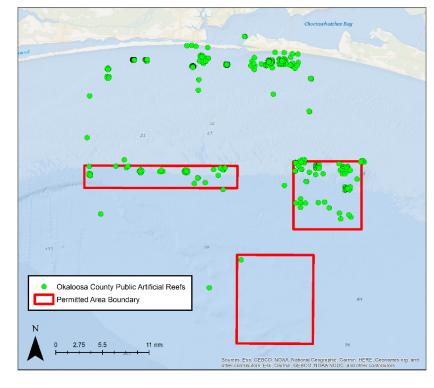

PROJECT DESCRIPTION - ARTIFICIAL REEF PROGRAM EXPANSION

Overview and Location

This project involves the creation of at least 10 artificial patch reef sites at selected locations to expand upon the existing permitted artificial reefs in Okaloosa County's nearshore and offshore waters. Figure 1 shows the general location of the existing artificial reef sites offshore of Okaloosa County. These permitted areas are also the locations where artificial reef modules from this project will be deployed.

Need and Justification

The first publicly funded artificial reef offshore Okaloosa County was in 1976. Since then, more than 400 publicly funded artificial reefs have been deployed. Okaloosa County is home to

the largest for-hire fishing fleet in the world and as such, there is a significant demand for reef fish habitat. Hard substrate and vertical structure are in low abundance in the northern Gulf of Mexico (Fikes, 2013), and artificial reef habitats provide: (1) hard substrate to support encrusting and colonial benthic organisms such as sponges and corals; (2) niche space for small marine invertebrates; and (3) shelter for larval and juvenile fishes. The increased habitat not only provides essential habitat for those commercially and recreationally important species of fish this area depends on but it also spreads out the fishing effort. Lastly, this is justified by the demonstrated benefits of artificial reefs (Adams et al., 2011).

Purpose and Objectives

The purpose of the proposed project is to add to and improve the network of artificial reefs in coastal waters of Okaloosa County to provide greater reef habitat and recreational and economic opportunities for residents and tourists, and to reduce fishing and diving pressure on the limited natural reefs and disperse pressure on existing artificial reefs. Specific objectives of the proposed project include: (1) increase recreational fishing opportunities, (2) increase structure for snorkeling, scuba, and marine life viewing, and (3) potentially increase fish productivity by providing habitat structure. These objectives are consistent with those of the Florida Fish and Wildlife Conservation Commission's (FWC's) artificial reef program, which are:

- 1. Enhance private recreational and charter fishing and diving opportunities
- 2. Provide a socio-economic benefit to local coastal communities
- 3. Increase reef fish habitat
- 4. Reduce user conflicts
- 5. Facilitate reef related research
- 6. Do no harm to fishery resources, essential fish habitat (EFH), or human health.

Project Components

This artificial reef project construction will be completed in a single phase in one year with monitoring occurring the following year. Project components include:

- Deployment of artificial reef materials in existing permitted areas offshore Okaloosa County
- Pre- and post- monitoring and data collection.

The focus of this project will be to create artificial patch reefs across a range of depths and locations within existing artificial reef permitted areas. Okaloosa County has developed a detailed reef deployment plan for this project. Prefabricated artificial reef modules will be transported to the sites and deployed at a minimum of 10 locations within the existing artificial reef permit boundaries.

The reef locations will be available for public use for recreational fishing and diving as part of a larger network of artificial reef programs across Okaloosa County and Northwest Florida to ensure residents and visitors have access regardless of county boundaries. Post construction monitoring will also be conducted to ensure that the deployment of this material produced high-quality habitat that supports important reef fish species (e.g., grouper, snapper).

Contributions to the Overall Economic and Ecological Recovery of the Gulf

Okaloosa County is a leader in ecotourism opportunities focused on scuba diving and recreational fishing. This project will: (1) support the increasing recreational demand for offshore reef fishing and scuba diving opportunities by both residents and tourists and (2) enhance the

abundance, distribution, and structural diversity of habitat in coastal waters of Okaloosa County.

Eligibility and Statutory Requirements

This project is consistent with, and addresses, the following RESTORE Act eligible activity:

- Eligible Activity 1: Restoration and protection of the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches, and coastal wetlands of the Gulf Coast region (primary)
- Eligible Activity 10: Promotion of tourism in the Gulf Coast region, including recreational fishing

Comprehensive Plans Goals and Objectives

This project is consistent with, and addresses, the following Comprehensive Plan Goal:

- Goal 3: Replenish and Protect Living Coastal and Marine Resources (primary)
- Goal 5: Restore and Revitalize the Gulf Economy.

This project is consistent with, and addresses, the following Comprehensive Plan Objective:

- Objective 3: Protect and Restore Living Coastal and Marine Resources (primary)
- Objective 8: Restore, Diversify, and Revitalize the Gulf Economy with Economic and Environmental Restoration Projects.

Implementing Entities

The Gulf Consortium with subrecipient Okaloosa County will be the implementing entities responsible for the design, construction, and success monitoring of the project.

Best Available Science and Feasibility Assessment

Artificial reefs in the Gulf of Mexico have been extensively studied with regard to the habitat and economic benefits they provide. The scientific literature on the ecological benefits is somewhat controversial (Lindberg et al., 2014; Fikes, 2013; Bortone et al. 1994; others). Some experts argue that artificial reefs are functionally comparable to natural reefs, and that they augment fish populations by providing habitat that is naturally limited in the Gulf of Mexico. Others argue that artificial reefs simply attract and aggregate existing fish populations, but do not enhance overall fish stocks. While those arguments may be debatable, the economic benefits of artificial reefs are not. Artificial reefs provide significant recreational opportunities and associated benefits along the Gulf Coast of Florida (Swett et al., 2011; Adams et al., 2011). In addition, research has produced best practices guidance on site selection, design features, and construction methods, criteria that are now part of the FWC regulations for permitting. Key literature that forms the basis for the Okaloosa County Artificial Reef Program are cited below:

• Adams, C., et al., 2011. The economic benefits associated with Florida's artificial reefs. EDIS document FE649 (2011): 1-6.

- Bortone, S.A., et al., 1994. Factors affecting fish assemblage development on a modular artificial reef in a northern Gulf of Mexico estuary. Bull. Mar. Sci. 55 (2-3), 319-332.
- Fikes, R., 2013. Artificial Reefs of the Gulf of Mexico: A Review of Gulf State Programs & Key Considerations. National Wildlife Federation.
- Lindberg, W.J., et al., 2014. Rationale and Evaluation of an Artificial Reef System Designed for Enhanced Growth and Survival of Juvenile Gag, Mycteroperca microlepis. Proc.66th Gulf and Caribbean Fisheries Institute November 4–8. Corpus Christi, TX. Pages 320-325.

This project is feasible with respect to the ability to: (1) use existing permits; (2) construct the project within the proposed budget; and (3) effectively operate and maintain the project components over the long term. Furthermore, this project is consistent with the National Artificial Reef Plan published in 1985 and the Florida Artificial Reef Strategic Plan (FWC, 2003).

Risks and Uncertainties

No risks were identified during the evaluation of this project that would preclude project implementation. Okaloosa County is very active in artificial reef creation and understands all facets of this project. Tropical storms and hurricanes could disturb recently-deployed reef substrate; Okaloosa County will ensure designs will minimize damage from tropical weather. Permits from the Army Corps of Engineers and Florida Department of Environmental Protection bind the county to spatial boundaries for navigation, channels, marine habitat resources, historic areas, sand borrow areas, existing structures and leases, etc.

Success Criteria and Monitoring

This artificial reef project involves the placement of hard substrate to: support recreational demand for offshore reef fishing and scuba diving opportunities; and enhance the abundance, distribution, and structural diversity of hardbottom habitat in Okaloosa County waters. It is anticipated that quantitative success criteria will be developed for:

• Increase in the coverage of new artificial reef habitat (HR005: Marine habitat restoration - Acres restored - Artificial reefs)

In the project grant request, a detailed monitoring program design will be described that addresses data collection and assessment methodologies for the above-listed criteria. Okaloosa County is committed to conducting the monitoring necessary to quantify project benefits. Species surveys will likely be completed by Okaloosa to provide additional data measures under the above metric.

Project Milestones and Schedule

This project is shovel ready and bid administration can begin as soon as the project is approved. Design and permitting is complete and the only portion of this project that needs to be complete is bid administration and construction/monitoring. These projects are well understood by Okaloosa County staff and it is expected that the entire project can be completed in one year with an additional year of monitoring scheduled after completion.

Budget and Funding Sources

Okaloosa County has estimated the total cost to create at least 10 artificial reef patch reef sites is \$391,769 and is committed to allocating \$391,769 of its share of the Florida Spill Impact Component to this project. All funds will be spent on the construction phase of this project. Design and permitting is complete and the only portion of this project that needs to be complete is bid administration and construction/monitoring.

Partnerships/Collaborations

Okaloosa County Artificial Reef Program collaborates with numerous stakeholders and regulatory agencies such as Florida Fish and Wildlife, Florida Department of Environmental Protection, Army Corps of Engineers, Florida Counties, other state wildlife commissions, fishing and diving organizations and clubs and many more. The relationship with this network of stakeholders and regulatory agencies will ensure the project is a success.

Manatee County

Manatee County Boat Ramp

PROJECT NO. 18-11

PROJECT DESCRIPTION - PROJECT NAME

Overview and Location

This project involves the design, permitting and construction of a new boat ramp, parking lot, restroom facilities and amenities located in Manatee County. Possible sites include, but are not limited to, Peninsula Bay and Terra Ceia Bay. Planning efforts will identify the location prior to engineering and design efforts. Manatee County will complete all due diligence to ensure that the selected site is permittable prior to requesting release of RESTORE funds for construction.

Need and Justification

Manatee County is in need of additional boat launch capacity to improve public access to lower Tampa Bay and the Gulf of Mexico. Spill Impact Component funding will be used as a portion of the boat ramp facility funding that will also

Gaines ville

Jacksonville

Jacksonville

Jacksonville

Jacksonville

Palm Coast

Octable

Rabon

As extract

As extract

For a sile

Cortal

Big Cyprosis

Rabon

Mami

be funded by the County or other grant opportunities.

Purpose and Objectives

The purpose of this project is to provide Manatee County residents and visitors with additional boat ramp capacity.

Project Components

 Design, permit and construct a boat ramp facility which will fully utilize the capacity allowed by the chosen location. Facility components will include a concrete launch ramp(s), docking piers, seawalls and/or living shoreline.

- The docks will be constructed with durability and longevity in mind, utilizing saltwater environment appropriate support pilings, stainless steel hardware, heavy duty lumber and composite decking.
- The plans will call for the construction of an impervious surface parking lot to control stormwater runoff and reduce wear and tear on vehicles.
- Restroom facilities will also be included in the plans.

Contributions to the Overall Economic and Ecological Recovery of the Gulf

The new facility will play a significant role in the water-access based economy of Manatee County and will be heavily utilized by local residents, neighboring county residents, tourists and various commercial operations offering charter fishing, eco-tourism, recreational boat rental, sightseeing, kayak rental and other services. The new ramp will be strategically located to provide easy access to many desirable destinations including the Gulf of Mexico, Tampa Bay and the Manatee River.

Eligibility and Statutory Requirements

The project is consistent with, and addresses, the following RESTORE Act eligible activities:

- Eligible Activity 6: Infrastructure projects benefiting the economy or ecological resources, including port infrastructure (primary)
- Eligible Activity 10: Promotion of tourism in the Gulf Coast region, including recreational fishing

Comprehensive Plans Goals and Objectives

The project is consistent with, and addresses the following Comprehensive Plan Goals:

 Goal 5: Restore and Revitalize the Gulf Economy: Enhance the sustainability and resiliency of the Gulf economy (primary)

The project is consistent with, and addresses the following Council objectives:

 Objective 8: Restore, Diversify, and Revitalize the Gulf Economy with Economic and Environmental Restoration Projects (primary)

Implementing Entities

The Gulf Consortium and subrecipient Manatee County will be responsible for the design, construction, and successful monitoring of the project.

Best Available Science and Feasibility Assessment

The new boat ramp facility will be heavily utilized public access point to the Gulf of Mexico. Planning phases of the project will assess location-specific feasibility and permitablity of the boat ramp.

Risks and Uncertainties

Coastal construction is always accompanied by risks of storm damage and coastal morphology changes. Increased sea levels will be accommodated during design phase. Permitability is a risk that should be minimized during project design. Cost escalation is another risk that will be mitigated during design work.

Success Criteria and Monitoring

As this project will improve access to both the internal waterways of Manatee County and the Gulf of Mexico, numeric success criteria will be developed for the following metrics:

 RES007: number of improvements to recreational habitat/infrastructure Public recreational use statistics

SEP project timing and cost revisions and scope changes

GULF CONSORTIUM

The Adaptive Compliance project (24-1) was added to the Florida SEP in 2020 with SEP Amendment #2. This project supports financial and regulatory compliance for Gulf Consortium projects for activities that are not specific to other individual SEP projects. Project 24-1 was originally planned for 3 years of duration in order to assess costs and efforts, with the intention of extending the project duration and updating costs as needed during SEP amendments in future years. With this SEP Amendment #5, project 24-1 is being extended by five additional years, and the budgeted amounts per year have been increased based on annual expenditures nearly exceeding the original planned amount of about \$63k per year. With this amendment, the annual budget is estimated to increase to about \$74k per year to accommodate increased accounting and audit effort and increased software costs.

MILESTONE	ESTIMATED TOTAL DOLLARS	ESTIMATED POT 3 ALLOCATION

Other County funds		\$
Tot	al Committed Funding	\$560,334
	Budget Shortfall	\$0

OKALOOSA COUNTY

The Okaloosa County project 3-2 Offshore Fish Aggregating Devices (FADs) in the original Florida SEP is replaced in this amendment by project 3-6 Artificial Reef Expansion. The County has implemented several FADs recently (funded by other sources), and lessons learned about repairs and maintenance have led Okaloosa County to reallocate funds to artificial reef expansion.

MANATEE COUNTY

The Manatee County Boat Ramp project (18-11) added in this SEP amendment replaces project 18-10 Kingfish Boat Ramp. Kingfish Boat Ramp construction was not able to proceed due to permitting challenges; Spill Impact Component funding for Kingfish Boat Ramp is removed with this SEP amendment.

Appendix

Tables of project milestones and project total amounts are included on the following pages.

Agenda Item 9 Project Highlight

Statement of Issue:

At the request of the Board, an SEP project implementation highlight is presented at Board meetings.

Discussion:

Pinellas County's Lake Seminole Sediment Removal project was one of the Consortium's first awards, and has resulted in substantial nutrient and muck removals from this 600 acre near-coastal lake. More than 200,000 lbs of nutrients were dredged from the lake. Extensive monitoring is ongoing to assess nutrient concentration and other water quality improvements. Multiple funding sources supported the sediment removal. Rob Burnes served as project manager and Natasha Dickrell has been grant manager.

Attachments:

Slides on 16-1: Lake Seminole Sediment Removal

Action Required:

None; informational only.

Prepared by:

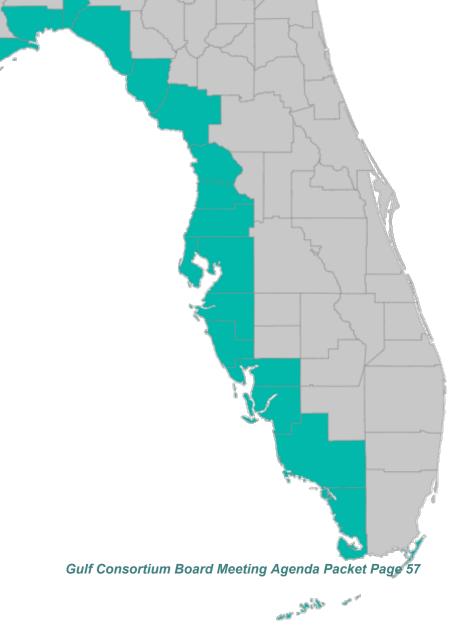

Dan Dourte, The Balmoral Group On: November 10, 2022

Project Highlight:

Lake Seminole Sediment Removal (Pinellas County)

16-1: Lake Seminole Sediment Removal (Pinellas County)

Background:

- 634 acre lake
- Diminished recreational use and habitat quality from invasive vegetation and algal blooms

Goals:

 Improve lake water quality by removing legacy nutrients and muck

Key Personnel:

- Rob Burnes
- Natasha Dickrell

Gulf Consortium Board Meeting Agenda Packet Page 58

16-1: Lake Seminole Sediment Removal (Pinellas County)

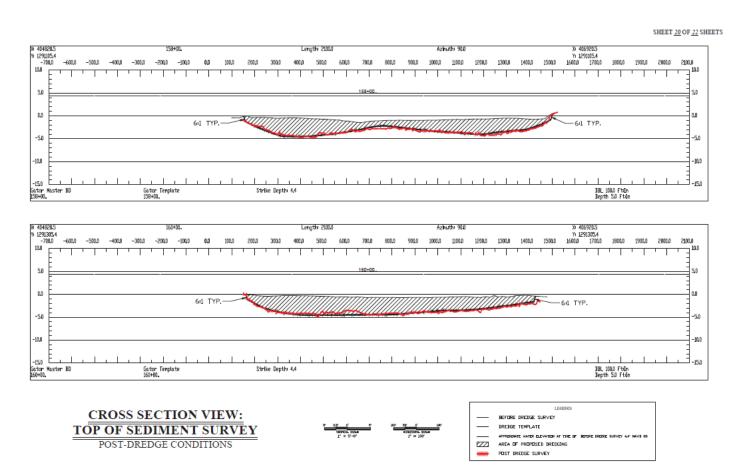

Awarded:

Nov 2019

Progress and status:

- Dredging completed by 10/8/2020: 903,500 CY of organic sediments removed
- In lake seepage meters and upland groundwater monitoring wells adjacent to the DMMA are being monitored
- Water quality sampling is ongoing; data available at https://pinellas.wateratlas.usf.edu/waterbodies/ /lakes/7045/lake-seminole

16-1: Lake Seminole Sediment Removal (Pinellas County)

Metric target:

- 238,880 lbs of total nutrients removed (194,980 lbs of N total; 43,900 lbs of P total in sediment removed)
- Total nutrient removal achieved with sediment dredging

Leveraged Funds

- \$8M from County
- \$8M from SWFWMD
- \$1.5M from State
- \$1M from RESTORE

Agenda Item 10 General Counsel's Report

Statement of Issue:

There are no updates from General Counsel

Action Required:

None, informational only

Prepared By:

Amanda Jorjorian General Manager The Balmoral Group November 10, 2022

Agenda Item 11 Manager's Report

Statement of Issue:

Consortium staff provides a report on updates to Consortium activities since the last Board meeting.

Discussion:

Staff submitted 10 draw requests, 2 Performance Reports, 5 Financial Reports, and 2 Grant Applications during the period. Currently we have 51 grants in various stages of activity and have passed the \$100 million milestone, with \$31 million under RESTORE review, \$60 million in active awards, \$7 million in internal review and \$5 million closed or withdrawn.

Dan Dourte attended RESTORE Council in-person training in Alabama November 7-9 and will provide an update on relevant learnings at the next Coordinators meeting.

OSA and Risk Assessments: Updated risk assessments are completed for all subrecipients. Counties will be notified of their risk rating as the assessment is completed.

Board and committee vacancies: We have been notified that Citrus County will nominate a new Commission later this month. Commissioner Parish has indicated that he is not able to participate in remote Finance Committee meetings, and as such we will need a new Finance Committee member and urge anyone with a background or familiarity with financial statements to consider joining the committee. Feel free to reach out with any questions if you may know of someone interested; County staff can participate.

At the Board's direction, this meeting included an agenda item highlighting the Consortium's accomplishments through highlighting a funded project. We will continue to highlight selected projects that demonstrate successful Gulf Restoration by the Consortium.

In unfortunate news, we learned that the environmental community lost Jessica Bibza. Jessica was a frequent speaker at early Gulf Consortium meetings and the original facilitator of RESTORE Coordinator roundtables, that have been very valuable for the Consortium. She was training for a triathlon, having completed several Ironman World Championships, and tragically was the victim of a bicycle accident in Pinellas County. She was passionate about the environment, and had a great impact on everyone who met her.

Agenda Item 12 **Public Comments**

<u>Statement of Issue</u>:
The public is invited to provide comments on issues that are NOT on today's agenda.

Attachments:

None

Prepared by:

Amanda Jorjorian The Balmoral Group On: November 7, 2022

Agenda Item 13 Board Member Comments

Statement of Issue:

Members of the Board are invited to provide comments on relevant issues.

Attachments:

None

Prepared by:

Amanda Jorjorian The Balmoral Group General Manager On: November 7, 2022

Agenda Item 14 **Upcoming Gulf Consortium Board Meeting**

Statement of Issue:

The Gulf Consortium Board must meet in January for board elections and to approve Amendment 5 to the SEP. There is no FAC meeting that aligns with a January Consortium meeting and the Board has elected for a virtual meeting. Board discussion to be held to obtain consensus on the date for the January meeting.
